City: City Council

On April 24, 2012, the City Council approved an amended budget for Potomac Yard Metrorail Station environmental impact statement.

On April 24, 2012, a budget memorandum was provided to City Council in response to Councilman Krupicka's request to reactivate the City's traffic calming/iN-STEP program and design the new program as a "Complete Streets" focused program. A Complete Streets program would fund pedestrian facilities including crosswalks, sidewalks, and pedestrian safety infrastructure, bicycle facilities including bike lanes, sharrows and other bicycle infrastructure, and traffic calming devices to manage traffic speeds and volumes. In addition to restoring CIP funding for the construction of new Complete Streets infrastructure, the proposed program would also require a Complete Streets Coordinator position to be added to develop and implement the City's Complete Streets guidelines as recommended by the Transportation Commission.
